

At Anthony Broderick Photography, we believe in giving all our clients the best standard of professional service and photographic experience possible, by allowing all our clients the flexibility and freedom of designing their own photographic package, in a timescale to suit you without the pressure or obligation to purchase fixed products.

Our standard contract for photographic services is for the photographer's time only. It includes the photography on the day, post wedding editing time and the uploading of your photos (minimum of 200) to a dedicated on-line gallery.

The gallery will enable your guests and you to view your wedding days photos, choose and purchase prints that you can use to make up a traditional wedding album if you wish.

In addition however, there is also a wide range of alternative ways in which to present your wedding photos, whether it is your personal memento or a gift for family and friends. I work with some of the UK's top suppliers to the professional photographer industry.

New, innovative and exciting ways of printing are constantly being introduced to the market, expanding the choice of photographic papers, cover styles and finishes, presentation boxes etc. I do not commit you to my choice of photo presentation as I believe that the choice should be yours and you should be able to put your own personal style on your memento of your special day.

I have therefore listed below costs for a basic print process for the most popular albums to give you an idea for your budgeting purposes.

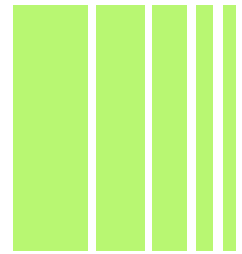

A4 Album - 210x297mm (8.5x12 inches)	30 page /15 leaves	£300
	40 page /20 leaves	£320
